

SCREEN PRINT

Screen Print

Create exciting motifs on clothes and fabrics with Screen Print fabric colours and stencils.

Place the stencil on the fabric, exactly where you want to place your motif. Already applied colours underneath your motif must be completely dry. Place a horizontal line of paint at the top of your motif. Applying with a plastic scraper – pull the paint across the entire motif until it is completely covered with paint. Carefully remove stencil.

Screen Print fabric paints can be used for almost any type of fabric (cotton, silk, artificial fibres etc.). After fixation the painted fabric is washable at 40° C.

The colours are available in 10 attractive shades in practical 250 ml bottles with practical tip for easy-dosing.

Advice:

Place several colours on your stencil and let the motif shimmer.

Decorate the dried motif with Schjerning Effekt Liner or Schjerning PointPen.
